O2 - Oxygen Scented Cat Litter

I have two cats, and they always let me know when they're happy...and when they're not so happy. Since I've started using Oxygen Scented Cat Litter, they've been telling me in their own special way that they approve of my new choice and I agree!

Oxygen Scented Cat Litter releases pleasant clean oxygen each time one of my cats begins scratching in their litter box. It not only leaves the cat quarters smelling fresh and clean - but also the entire house!

Oxygen Scented Cat Litter - buy it because your cat deserves it, but more so, because you deserve it! You, and your pet, will approve!
